dominic@bluengray.in

ABOUT CONFERENCE

This dedicated conference brings together national & international experts to advance the science and practice of Passive Fire Protection – from system design to testing and certification – with a focus on building fire-resilient infrastructure.

DELEGATES

This conference is curated for professionals and organizations involved in fire safety, building design, construction, compliance, and facility operations, including:

- Architects, Consultants, and Urban Planners
- MEP & Fire Protection Designers
- Real Estate Developers & Builders
- Facility and Safety Managers
- Fire Officers and Emergency Responders
- Regulatory Authorities & Approval Bodies
- Testing Labs, Certification Agencies & Quality Auditors
- Passive Fire Product Manufacturers & Distributors
- EPC Companies, PMC Firms & Contractors

KEY TOPIC

- Compartmentation Techniques
- Fire Doors & Glazing
- Fire stopping
- Shaft & Penetration Sealing
- Intumescent Coatings
- Inspection & Retrofitting
- Testing & Certification
- Indian & International Codes & Standards

A special focus will be given to inspection and maintenance challenges, retrofitting old buildings, and the role of third-party testing and certification. These themes aim to empower stakeholders to build safer, code-compliant, & resilient infrastructure.

ABOUT THE ORGANISER

Blue and Gray Business Management Consultants is a pioneering event and knowledge management company with over 34 years of industry expertise. Founded by Mr. K.P. Dominic, a renowned leader in India's fire and electrical safety movement.
